

MCTA MISSION STATEMENT

Serving Montgomery County, Maryland, the Montgomery County Tennis Association (MCTA) was founded in 1996 to promote tennis in our area. Since its inception, MCTA has grown to be the largest USTA Community Tennis Association in Maryland. MCTA serves more than 6,000 league players with year-round league programs, including both USTA and WTT formats, as well as regular Tennis Socials for those who desire a less competitive environment; 1,200 Junior Team Tennis players in three separate sessions per year; 600 or more tournament players in at least six sanctioned adult and youth tournaments a year; and is a leading proponent of USTA's 10-and-under tennis initiative that introduces children to tennis using courts and equipment re-sized to be age-appropriate. its allied foundation, the Montgomery County Tennis Education Foundation, MCTA supports tennis instruction and training for 30+ Special Olympics athletes; after-school tennis clubs at several public middle schools; and summer camp experiences that combine tennis with educational enrichment for children who, otherwise, could not afford it.
